Additionally, all transactions under this Customer Agreement shall be subject to the constitution, by-laws, rules, regulations, customs, usage, rulings and interpretations of the counterparty institution or other Interbank Market (and its clearing organization, if any) where such transactions are executed and to all applicable Federal and State laws and regulations. If any statute shall hereafter be enacted or a rule or regulation shall hereafter be adopted which shall be binding and mandatory upon FXDD and shall affect it in any manner or be inconsistent with any of the provisions hereof, the affected provision of this Customer Agreement shall be deemed modified or superseded, as the case may be by the applicable provisions of such statute, rule or regulation, and all other provisions of this Customer Agreement and provisions so modified shall in all respects continue in full force and effect. 5. RISK ACKNOWLEDGEMENTS

CUSTOMER ACKNOWLEDGES AND UNDERSTANDS THAT TRADING AND INVESTMENT IN LEVERAGED OTC SPOT FOREIGN CURRENCY CONTRACTS IS HIGHLY SPECULATIVE, INVOLVES AN EXTREME DEGREE OF RISK, AND IS GENERALLY APPROPRIATE ONLY FOR PERSONS WHO CAN ASSUME RISK OF LOSS IN EXCESS OF THEIR MARGIN DEPOSIT. Customer understands that because of the low margin / high leverage normally available in Foreign Currency and Precious Metals trading, price changes in Foreign Currency and Precious Metals Contracts may result in significant losses. Such losses may substantially exceed Customer's investment and margin deposit. By Customer directing FXDD to enter into any Foreign Currency and Precious Metals Contract, any profit or loss arising as a result of a fluctuation in the exchange rate affecting such Currency will be entirely for the Customer's account and risk, all initial and subsequent deposits for margin purposes shall be made in U.S. dollars, in such amounts as FXDD may in its sole discretion require; and FXDD is authorised to convert funds in Customer's account for margin into and from such Foreign Currency at a rate of exchange determined by FXDD in its sole discretion on the basis of the then prevailing money market rates. Customer warrants that the Customer is willing and able, financially and otherwise, to assume the risk of Foreign Currency and/or Precious Metals trading. In consideration of FXDD carrying his/her Account(s), Customer agrees not to hold FXDD responsible for losses incurred through following its trading recommendations or suggestions or those of its officers, employees, agents or representatives. Customer recognises that guarantees of profit or freedom from loss cannot be given and it is impossible to predict performance in Foreign Currency and Precious Metals trading. Customer acknowledges that Customer has received no such guarantees from FXDD or from any of its representatives or any Introducing Broker or other entity with whom Customer is conducting his/her FXDD account and has not entered into this Customer Agreement in consideration of or in reliance upon any such guarantees or similar representations. All transactions effected for Customer's Accounts and all fluctuations in the market prices of the Contracts carried in Customer's Accounts are at Customer's risk, and Customer shall be solely liable therefore under all circumstances. Customer represents and warrants that Customer is willing and financially able to sustain such losses, and that the trading of Spot Foreign Exchange (Currencies) and/or Precious Metals is a suitable investment vehicle for the Customer. FXDD is not responsible and liable for delays or partial or total failures in any online (electronic) Trading Platforms or any communications facility or other causes beyond FXDD's reasonable direct control. The Customer understands and recognises that the transactions to be conducted pursuant to this Customer Agreement are NOT conducted on a Regulated Market or Exchange. Customer represents that he/she/it is aware of the risks inherent in the trading of OTC Foreign Exchange (Currencies) and/or Precious Metals and is financially able to bear such risks and withstand any losses incurred. (For a further discussion on the Risks of Trading Foreign Exchange and Precious Metals please refer to the Risk Disclosure Statement and Additional Risk Disclosure Statement).

11. MARGIN REQUIREMENTS

Customer shall provide to and maintain with FXDD Margin in such amounts and in such forms, and within such limits as FXDD, in its sole discretion, may from time to time require. Margin requirements, including Initial (Opening) Margin and Maintenance Margin requirements, are at FXDD's discretion. FXDD may change Margin requirements at any time. **Customer agrees to maintain sufficient margin in Customer's account without notice from FXDD.** Provided, however, and notwithstanding any demand for additional Margin, FXDD may at any time proceed to liquidate Customer's Account in accordance with Paragraph 15 below. Any failure by FXDD to enforce its rights hereunder shall not be deemed a waiver or future waiver of such rights by FXDD, and the Customer shall impute no liability to FXDD whatsoever for losses resulting from such failure. No previous Margin requirement by FXDD shall preclude FXDD from increasing or decreasing that requirement without prior notice to the Customer. FXDD may call for additional Margin ("Margin Call") at any time Customer's Margin Balance falls below the FXDD Maintenance Margin Level as applied to that Account and at any time FXDD, in its sole discretion, believes that it is prudent to do so. FXDD may at any time liquidate Customer's Account in accordance with Paragraph 12 below. Any Customer funds that represent Excess Margin Deposits shall be maintained in an escrow account at a top-tier financial institution selected by FXDD in its sole discretion. FXDD reserves the right to withdraw or transfer funds from the Customer's account without notice to ensure that posted Marked-to-Market Margin (defined as Margin plus or minus marked-to-market P/L) equals or exceeds Required Margin on Opened Positions and/or to satisfy any payment obligation to FXDD, including fees and charges in respect of Customer's Account. In the event that Customer directs FXDD to sell any Margin, Collateral, Contract or other property and FXDD is unable to deliver such Margin, Collateral, Contract or other property to a purchaser because Customer fails to deliver it to FXDD, FXDD may borrow or purchase any Margin, Collateral, Contract or property necessary to make such delivery, and Customer hereby agrees to guarantee and hold FXDD harmless against any liability, claim, loss, damage, cost or expense, including attorneys' fees that FXDD may sustain.

12. SECURITY CUSTOMER AGREEMENT

In order to secure any indebtedness or other obligations at any time owing from Customer to FXDD, including, without limitation, (a) indebtedness or other obligations under any Account, Contract or other transaction with FXDD; or (b) any indebtedness or other obligations resulting from any guarantee by Customer of any Account, Contract or other transaction with FXDD, Customer hereby assigns, pledges and grants to FXDD a security interest in, right of retention and right of setoff against: (i) all of Customer's Accounts with FXDD; (ii) all Contracts, cash and other property in Customer's Account at FXDD or delivered or otherwise provided by Customer to secure its indebtedness or other obligations to FXDD or in FXDD's possession or control for any purpose (including safekeeping); and (iii) all products and proceeds of the foregoing (collectively, (i), (ii) and (iii) are referred to as "Collateral").

In the event of Customer indebtedness to FXDD for reasons including but not limited to (a) and (b) outlined above, FXDD shall have the right to sell, pledge, grant as security, retain, assign, invest, commingle and otherwise use any Collateral it holds (including, but not limited to, using the Contracts as collateral for a loan to FXDD) free from any claim or right of any nature whatsoever of the Customer, including any equity or right of redemption by the Customer and to register any Collateral in the name of FXDD, its custodian or a nominee for either. Any failure by FXDD to enforce its rights hereunder shall not be deemed a waiver or future waiver of such rights by FXDD. FXDD is irrevocably appointed as attorney-in-fact for Customer and is authorized, without notice to Customer, to execute and deliver any documents, give any notice and to take any actions on behalf of Customer, including the execution, delivery and filing of financing statements, that FXDD deems necessary or desirable to evidence or to protect FXDD's interest with respect to any Collateral. In the event that the Collateral deemed acceptable to FXDD ("Eligible Collateral") is at any time insufficient to satisfy Customer's indebtedness or other obligations to FXDD, including obligations to provide Margin in accordance with the Trading Rules and Regulations and Paragraph 10 hereof, Customer shall promptly pay upon demand the entire amount of such deficit in accordance with the Trading Rules and Regulations and Paragraph 11 hereof.

13. CAPACITY

Any and all Contracts and transactions made and entered into by FXDD hereunder as a result of Customer directing FXDD to enter into such Contracts and transactions, are made and entered into by FXDD as Principal. FXDD shall act as Principal in any and all Contracts and transactions with the Customer and not as broker, intermediary, agent, and advisor or in any fiduciary capacity. The Customer understands and recognizes that any and all transactions and Contracts entered as a result of Customer directing FXDD to enter into such transactions and Contracts may be entered by FXDD, as Principal, with financial institutions including, without limitation banks, clearing institutions and Foreign Exchange and Precious Metals dealers ("Counter Party") at the sole discretion and option of FXDD. Customer represents, agrees and authorizes FXDD to act as Principal in entering, delivering, selling, purchasing and clearing with any Counter Party(s) any and all Customer's Contracts. 14. ROLLOVERS

In the absence of an offsetting or closing liquidation trade executed prior to the close of business, FXDD is authorized to rollover all or any portion of the Foreign Currency and Precious Metals Positions in Customer's Account at FXDD's absolute and sole discretion and at Customer's risk to the next settlement spot date. Rollovers will be executed at rates determined by FXDD and at FXDD's absolute and sole discretion. Rollover debits or credits will be reflected in the Customer's Account at a time after the normal close of the business day for FXDD. Any of the above actions may be taken without demand for Margin or additional Margin, without prior notice of sale or purchase or other notice to Customer, Customer's personal representatives, heirs, executors, administrators, trustees, legatees, or assigns, and regardless of whether the ownership interest shall be solely that of the Customer or be held jointly with others. Customer shall at all times be liable for the payment of any deficit balance in Customer's Account upon demand by FXDD and, in all cases, Customer shall be liable for any deficiency remaining in Customer's Account in the event of the liquidation thereof in whole or in part by FXDD or by Customer.

In the event that the proceeds realized pursuant to liquidation are insufficient for the payment of all liabilities of Customer due to FXDD,

Customer shall promptly pay upon demand the entire amount of any such deficit, together with all other deficits and all unpaid liabilities of Customer. Included are all costs of enforcement and collection, such as, but not limited to, actual attorneys' fees, disbursements, travel and other expenses, interest on any such deficit and liabilities at a rate equal to five (5) percentage points above the then prevailing prime rate at FXDD's principal bank or the maximum interest rate allowed by law, whichever is lower and any other cost incurred by FXDD. In the event FXDD incurs expenses other than those for collection of deficits with respect to Customer's Account, Customer agrees to pay all such expenses in full.

16. CHARGES

(a) FXDD acts as a Principal and, in most instances, charges no Commissions. FXDD may retain the difference between the purchase and sale price it pays on or receives from your transactions. FXDD reserves the right to change its fee structure at any time at its sole discretion. FXDD will charge for banking related fees, such as wire transfers for deposits/withdrawals. FXDD will also charge for redemptions. FXDD will also charge Customer for the purchase of optional, value added services offered by FXDD.

(b) If there have been no executed trades in your account on a quarterly basis (i.e., every 90 days), your account will be subject to a dormant account administrative fee (the "Fee"). The Fee will be equal to the lesser of the remaining balance in your account or \$30. If your account is assessed the Fee and your account balance is reduced to zero (0), your account will automatically be archived.

If an Introducing Broker or third party advisor introduces the Customer to FXDD, the Customer understands that FXDD may pay fees, commissions or other compensation to such person or entity for the introduction. Customer acknowledges and agrees that as an Introducing Broker or third party advisor to FXDD, the Introducing Broker or Third Party Advisor does not hold or collect any margined funds on behalf of FXDD or for the Customer's Account. Funds should instead be sent via a Wire transfer or other means directly to FXDD for purposes of depositing into Customer's margined Trading Escrow Account. FXDD does not control and cannot endorse or vouch for the accuracy of any information or advice Customer may have or will receive from the Introducing Broker or third party advisor and Customer agrees that such Introducing Broker or third party advisor does not in any form or manner represent or act for or on behalf of FXDD. Customer should also understand that Introducing Brokers or third party advisors may not be regulated by a regulatory authority. The Customer further understands and agrees that the Introducing Broker or third party advisor shall have the right to access information regarding the account of the Customer with FXDD including but not limited to account information, Customer address, phone number, and e-mail address. Further, the Customer has a right to be informed of the precise nature of such remuneration.
- (i) Customer understands and agrees that if Customer's account with FXDD is introduced by an Introducing Broker, that an Introducing Broker shall have the right to access Customer's FXDD account, but the Introducing Broker shall not have the right to enter into any trades on Customer's FXDD account, unless authorised by the Customer under a power of attorney between Customer and an Introducing Broker granting such an Introducing Broker the right to trade on Customer's account.

No oral agreements or instructions to the contrary shall be recognized or enforceable.

This agreement may be terminated by FXDD at any time whatsoever upon the transmittal of written notice of termination to Customer; provided that such termination shall not affect any transactions previously entered into and shall not relieve either party of any of those obligations set forth in this Customer Agreement which are applicable even after termination of the Customer Agreement. FATCA PROVISIONS

The Foreign Account Tax Compliance Act (FATCA) is a US law which provides for an annual disclosure to the US Tax authority (IRS – Internal Revenue Service) of accounts held by US taxpayers outside the United States.

This legislative framework applies to « US persons », (US citizens or US residents). FATCA requires Financial Institutions to transmit on a yearly basis to the IRS the following information regarding US persons: the identity of the account holders, the balance of their accounts, their financial income and gross proceeds of the sale of securities. This reporting also applies to the accounts of US legal or patrimonial entities owned by US taxpayers.

Existing US tax legislation compels US taxpayers to file their tax return irrespective of their place of residence. It should be noted that FATCA will have no impact on the reduced tax rates resulting from international tax treaties for the benefit of eligible clients.

In most cases, FATCA is implemented through Intergovernmental Agreements (IGA's) signed between the USA and their partner countries. These IGAs allow for and make compulsory the collection and transmission of tax and banking information by all Financial Institutions, either to their national tax authorities, which in turn have to transmit them to the IRS, or directly to the IRS, depending on the jurisdiction. Many countries including a majority of European states have opted for the IGA approach. In countries which are not opting for an Intergovernmental Agreement, FATCA is implemented through a direct agreement between the IRS and each Financial Institution.

Non cooperative Financial Institutions will be subject to penalties.

FXDD Malta Ltd will also contact legal entities when their FATCA classification needs to be clarified. During the on-boarding process, FXDD Malta Ltd will be collecting information allowing for the identification of American residents and citizens (including persons with a dual citizenship) who will have to provide their US Tax Identification Number. Patrimonial entities will have to identify their American ultimate beneficial owners. This allows FXDD Malta Ltd to report information about these clients towards the IRS; in turn, these clients will not be subject to the 30% withholding tax levied on US source income.

The first reporting for concerned clients will take place in the spring of 2015 and will contain information related to year 2014. Thereafter, the reporting will be annual.

As such, you further agree that margined spot OTC Foreign Exchange trading may not be suitable for retirement funds. FXDD encourages Customers to closely manage outstanding open positions and to use prudent money management precautions such as, but not limited to, Stop Loss Orders.

Excessive leverage available with OTC margined spot Foreign Exchange can lead to quick losses. By signing the Risk Disclosure Statement, the Customer agrees that using a high degree of leverage, defined as the use of a small amount of capital to control a larger amount in an Open Position, can result in large losses due to a price change(s) of open Foreign Currency positions with FXDD. FXDD provides leverage on most Currency Pairs for most customers of 100:1. For example, with 100:1 leverage, the Customer has the potential to control a \$500,000 position with \$5,000 in an Account. FXDD encourages each of its Customers to use only that portion of leverage that such Customer is most comfortable with and to use money management precautions such as, but not limited to, Stop Loss Orders for the purpose of managing risk. FXDD reserves, at its sole discretion, the right to reduce or increase the amount of leverage given on any Currency Pair at any time and without notice.

OTC margined spot Foreign Exchange trading experiences periods of substantial liquidity risk. By signing the FXDD Risk Disclosure Statement, each Customer acknowledges that liquidity risk, resulting from decreased liquidity of a currency pair, is usually due to unanticipated changes in economic and/or political conditions. Each Customer also acknowledges that Liquidity Risk can affect the general market in that all participants experience the same lack of buyers and/or sellers. Each Customer also understands that liquidity risk can be FXDD specific due to changes in liquidity available to FXDD from FXDD's inter-bank liquidity providers or specific to retail Foreign Exchange market makers due to a perception that the risks of the market segment have increased. When liquidity decreases, Customers can expect, at the minimum, to have wider bid to ask spreads as the supply of available bid/ask prices, outstrips the demand. Decreases in liquidity can also result in "Fast Market" conditions where the price of a currency pair moves sharply higher or lower or in a volatile up/down pattern without trading in an ordinary step-like fashion. In some instances there may exist the possibility that a trading bid and/or ask price for a Foreign Exchange pair or pairs is not available (a situation where there is no liquidity). Although there may be instances when the aggregate OTC spot Foreign Exchange market enters a "Fast Market" situation or periods where liquidity is in short or no supply, it is important to note that, FXDD's prices, bid/ask spreads and liquidity will reflect the prevailing inter-bank market liquidity for FXDD.

FXDD will liquidate Customer positions that are not adequately margined. Because of the leverage available with OTC margined spot Foreign Exchange trading and the potential for extreme volatility, FXDD reserves the sole discretionary right to liquidate a Customer's Account should the Margin in the Account not be sufficient to cover the potential risk of loss. Required margin levels are indicated on FXDD's trading platforms. Should a Customer's Account value go below the Liquidation Level, FXDD reserves the right to automatically Liquidate the customer's position and the Customer will be responsible and liable for all resulting losses as a result of such liquidation. FXDD reserves the right to change the Liquidation Level at its sole discretion.

Prices from FXDD are independent of prices of other institutions and businesses. By signing the FXDD Risk Disclosure Statement, each Customer acknowledges that the prices reported by FXDD for buying and selling currency pairs are independent and can differ from the prices displayed elsewhere or from those of other liquidity providers in the Interbank Market. Differences can result from, but are not limited to, changes in liquidity from Interbank market makers to FXDD, an unbalanced position or exposure in currency pairs at FXDD, or differing expectations of price movements in currency pairs by FXDD. FXDD expects that in most cases the prices provided to its Customers will be in line with the general Inter-bank Market but FXDD does not represent, warrant or covenant, explicitly or implicitly, that this will always be the case.

Rollover rates for open positions of currency pairs are determined by FXDD and are independent of prices found elsewhere in the Interbank Market. By signing the FXDD Risk Disclosure Statement, each Customer acknowledges that all existing spot open positions that remain open over the end of business day (defined as 5:00 p.m. New York), are automatically rolled over to the next available Spot Settlement Date at a net debit or credit to a Customer's Account as determined by spot interest rates determined solely by FXDD. In general, if a Customer is long (has bought) on a currency that has a higher spot interest rate than the currency on which such Customer is short (has sold); such Customer can expect a net credit added to the Customer's Account Value at the end of day. If a Customer is short (has sold) a currency that has a higher spot interest rate than the currency on which such Customer is long (has bought), such Customer can expect a net debit subtracted from the Customer Account Value at the end of the day. Rollover debits and credits are also influenced by the number of days that the position must be to be rolled. For positions that must be rolled from a Spot Settlement Date of Friday to Monday, the debit or credit will reflect the rollover from Friday to Monday, or three (3) business days. For rollovers from Monday to Tuesday, Tuesday to Wednesday, Wednesday to Thursday and Thursday to Friday, the rollover debit or credit is for only one (1) business day. If there is a holiday and FXDD is closed, the rollover would include the holiday. For example, if Tuesday is a holiday, rollovers from Monday will be two (2) business days

(i.e. from Monday to Wednesday). Since rollover debits and credits are determined by the respective short-term spot interest rates of the respective currencies that make up a currency pair, a large spread between one currency's rate in relation to another can cause a large debit or credit rollover amount. This spread can result, but is not limited to a country's tightening of credit conditions in order to dissuade speculators from shorting a currency versus another. For example, the Bank of England in the early 1990's raised short-term interest rates to over 20% in an attempt to dissuade currency speculators from selling Pound Sterling against other currencies when the Pound Sterling came under pressure by speculators. In this situation, those who were short GBP and long US Dollars were forced to rollover their spot positions at a large debit from one spot settlement date to the next. By doing so the Bank of England was attempting to dissuade currency speculators from selling GBP over spot and rolling over the position from one day to the next. The action was intended to force those who were short GBP, to cover their positions before the end of the day forcing an underlying bid into the currency. Year-end and quarter-end periods can also cause unusual spikes in short-term interest rates that may cause temporary spikes in rollover debits and credits. Each Customer acknowledges that there exists a rollover risk to currency positions. FXDD will display the rollover debits or credits for the respective currency pairs on its web site (www.fxdd.com.mt) and automatically periodically update Customer Reports to reflect the cash flow. FXDD reserves the right to change the credits or debits at its sole discretion if the original amounts are in wrong due to an error or omission.

Sweep rates for currency balances other than USD are determined by FXDD and may be independent of prices found elsewhere in the Interbank Market. Profits that are calculated in a Foreign Currency are "swept" into dollars when the open positions are closed and the Profit and Loss realized. For example, if a Customer buys one (1) lot of USD/JPY at 115.00 and sells the same one (1) lot at 116.00, the realized profit on the transaction would be:

| | | | |
|-------|-----------------------------|---|----------------|
| | Sale Proceeds in Yen | = | 11,600,000 Yen |
| Less: | Purchase Proceeds in Yen | = | 11,500,000 Yen |
| | | | ----- |
| | Realize Profit of the Trade | = | 100,000 Yen |

Since the Realized Profit is in Yen, the amount must be swept into US dollars by selling Yen and Buying USD. If the exchange rate for the USD/JPY exchange rate is 116.05, the 100,000 Yen are converted and swept into USD at 116.05 creating a USD realized profit of \$861.70 (100,000 / 116.05 = \$861.70). When dealing in currencies where the secondary currency is USD (i.e., EUR/USD and GBP/USD), the realized profit or loss is already stated in USD. As a result, the profit or loss does not have to be swept.

There is no guarantee that FXDD will be able to execute Stop Loss Orders, Limit Orders or OCO orders at the price the Customer designates. Customer acknowledges and agrees that there may be market, liquidity or other conditions that will prevent FXDD from executing a Customer's specific Stop Loss Orders, Limit Orders or OCO Orders at the Customer designated price. In some cases the orders will be executed at prices that are less favourable to the price entered and desired by the Customer. The Customer acknowledges and agrees that the Customer is still responsible and liable for deals executed at levels different from their orders and that FXDD is not liable for failure to do so.

There is a technology risk inherent in trading online or via a software application and the Customer accepts that risk. FXDD has invested resources developing, testing, configuring, and integrating the FXDD Internet Trading Platform, and other relevant software and hardware. However, the Customer acknowledges and agrees that FXDD does not guarantee that the Customer will be able to successfully execute, deal, monitor their positions, or perform other essential trading tasks while using the public Internet and other technology from FXDD or from third party vendors known or not known on which FXDD may rely. FXDD cannot control, without limitation, the routing, Internet connectivity, reliability of customer or FXDD equipment, network connections or any other technology hardware malfunction caused by FXDD hardware, hardware and connectivity that makes up the public Internet, or hardware at the Customer's location. FXDD does not guarantee, although reasonable efforts have been made, that the FXDD Internet Trading Platform and Associated Back Office and Broker Software Interfaces or any other code or application including but not limited to the interface with FXDD liquidity provider(s) or the interface with the escrow account institution or other technology application that would come under the heading software, are free of programming bugs that can cause trading, position keeping or any other required functionality of the FXDD Internet Trading Platform and other relevant software applications associated with FXDD including but limited to clearing, market making and escrow account software from becoming inoperable or without errors.

The Customer necessarily assumes a failure of communication risk. Although FXDD will have qualified representatives available by telephone during business hours to accept and execute Customer Market Orders, there exists the risk that the Customer will not be able to contact or

make contact with the FXDD representative due to, but not limited to, communication malfunction, an overabundance of telephone orders, or any other malfunction or negligence. The Customer acknowledges and agrees that Customer will hold harmless FXDD for any loss or missed trading opportunity resulting from any communication problems the Customer may encounter.

FXDD does not take responsibility for third party account managers and Customer agrees to hold harmless FXDD, its employees, agents, officers, directors and shareholders from any losses sustained by Customer as a result of actions undertaken by such third party account managers. Should a Customer grant a third party account manager discretionary trading authority, the Customer grants such authority for the Customer's Account at its sole and full risk.

FXDD reserves the right to correct any deals executed on misquoting errors. In the case when a quoting error occurs that results in a Customer deal executed at an off-market price, FXDD reserves the sole discretionary right to make the necessary corrections and adjustments to the Customer's Account whether it be in the favour of the Customer or not in the Customer's favour. Any change will be reported to the Customer via an electronic method such as but not limited to e-mail.

All market recommendations made by FXDD or any representative of FXDD are for informational purposes only. Any decision by the Customer to buy or sell a Foreign Currency Pair is an independent decision by the Customer. Market recommendations made by FXDD or a representative of FXDD do not constitute an offer to sell or buy any Foreign Currency pair from FXDD or from any other source that may provide dealing prices to the Customer. FXDD and its employees are not investment or trading advisor(s) and have no fiduciary duty to the Customer and are therefore not liable for any losses on trades and for any losses incurred by the Customer as a result of information or any recommendations made by FXDD or any representative of FXDD.

Customer is at risk if FXDD should go out of business. There is no guarantee that FXDD as a business will be profitable. Consequently, there exists a credit risk that FXDD may be subject to losses, which could, in turn, jeopardize the capital that the Customers have in their Accounts. Customer acknowledges that in the event of insolvency, the Customer can only look to FXDD for performance and return of all collateral and Margin that the Customer may have at FXDD.

FXDD may decide to exit the OTC margined Foreign Exchange business. FXDD may in its sole discretion decide that it does not want to continue to participate as a market maker in OTC Margined Foreign Exchange Trading. As a result, the Customer agrees and acknowledges that FXDD may liquidate all Customer positions, and return margined funds to the Customer at the sole discretion of FXDD, at any time and for any reason. FXDD's Customers shall not hold FXDD liable for any loss as a result of liquidation of the Customer's position either on an actual basis or as a result of missed profit opportunities.

Customers are responsible for any reporting errors. In case of Reporting and Confirmation errors or omissions, and/or errors in details of transactions including but not limited to the price at which deals were executed, the currency pair traded, the market direction (i.e., "buy" or "sell") of order, the type of order and/or any errors in fees, charges or credits to the Customer's Account, including but not limited to charges for executing a transaction, wiring funds, rolling over position, and/or sweeping Foreign Currency balances into the home currency, the Customer shall notify FXDD immediately upon discovery for review. In addition, the Customer is responsible for submitting details of any errors in writing to FXDD and sending the complete details to FXDD Malta Ltd. Attn: Customer Objections, Forni Complex, K2, First Floor, Valletta Waterfront FRN 1913 Malta (Europe). Notice shall be deemed received only if actually delivered or mailed by registered mail, return receipt requested or by private courier with a receipt.

Deals executed over the telephone have inherent risks. FXDD will accept Market Orders for deals done over the telephone and, at FXDD's discretion other types of orders may be accepted. Telephone deals are considered executed when the FXDD representative says, "done" and relays the complete deal details. Any given price by an FXDD representative over the telephone prior to execution is deemed to be an indicative price. FXDD reserves the right to change the indicative price given over the phone if the actual dealing price is different due to market conditions, misquote or volatility. FXDD is not responsible for Customer telephone orders if the Customer cannot be heard or understood by the FXDD representative due to, without limitation, accent, speech defect, faulty connection, or excessive background noise at the Customer's location or at FXDD. To better ensure execution, FXDD requires that Customers communicate in English when giving orders. FXDD cannot guarantee that telephone orders given in a foreign language will be executed. For best results and fast execution, the following

procedure will be used. The Customer will first be asked by the FXDD representative the following Account Information: The Customer's FXDD User Name, Account Number and/or other identifying features. Only after the FXDD representative confirms the Customer's identity, the Customer should relay the following order information: the execution direction to Buy or Sell, the number of lots, and the desired currency pair. The FXDD representative will repeat the order information for the Customer to confirm. For example the FXDD Representative may say the following, "Buy 2 lots of EUR vs. USD at the Market. Confirmed?" By saying, "Yes" the order will be executed at the Market and the details -immediately given to the Customer after execution. The FXDD representative will enter the deal into the Customer's Account. The details and effects of the deal will be reflected in the customer's online reports. FXDD does not warrant that deals done over the telephone will be done at prices that mirror the prices displayed electronically at that time over the FXDD Internet Trading Platform. Although currently not planned, FXDD reserves the right to charge a commission for deals done over the telephone. Should FXDD charge a commission for telephone deals, it will be reported on the FXDD Website and be reflected as a line item debit in the Customer's FXDD Account Reports. All deals and charges done via the phone are final. FXDD reserves the right to tape all telephone calls without providing an electronic indicator tone ("beep") or otherwise advising the Customer that the call is being recorded. FXDD is not responsible or liable if the tapes of the telephone calls are erased or never recorded because of error, omission or for any other reason. FXDD is also not liable should user name and Account information be obtained knowingly or unknowingly by a third party and as a result, deals done in the name of the Customer without his or her knowledge or authorisation. Customers are responsible for protecting the confidentiality of their user ID and other identifying account information.

Transactions in other jurisdictions include an inherent risk. Transactions on markets in other jurisdictions, including markets formally linked to a domestic market, may expose you to additional risk. Such markets may be subject to regulation, which may offer different or diminished investor protection. Before you trade you should enquire about any rules relevant to your particular transactions. Your local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should ask the firm with which you deal for details about the types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade.

Off-exchange transactions. In some jurisdictions, and only then in restricted circumstances, firms are permitted to effect off-exchange transactions and the firm with which you deal may be acting as your counterparty to the transaction. FXDD functions as a direct counterparty to Customers in currency transactions. FXDD neither offers the right to offset, nor guarantees a market in which to offset. Therefore, it may be difficult or impossible to liquidate a position, to assess its value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks. Off-exchange transactions may be less regulated or subject to a separate regulatory regime. Before you undertake such transactions, you should familiarise yourself with the applicable rules and attendant risks.

FXDD has limited liability. The Customer agrees and acknowledges that FXDD shall not be liable to the Customer for any claims, losses, damages, costs or expenses, including attorneys' fees caused directly or indirectly by any events, actions or omissions, without limitation, claims, losses, damages, costs and expenses, including attorney's fees, resulting from civil unrest, war, insurrection, international intervention, governmental action including, without limits, exchange controls, forfeitures, devaluations and nationalizations, natural disasters, acts of God, market conditions, communication problems or any delay, disruption, failure of any transmission or communication system or computer hardware or software application whether supplied and belonging to FXDD or from a third party vendor that the Customer and FXDD rely on to conduct execution and reporting services.

FXDD’s Trading Rules and Regulations combined with the FXDD Risk Disclosure Statement, Additional Risk Disclosure Statement and all other account documents, annexes and amendments thereto will outline procedures and policies regarding trading and setting up an account with FXDD and form an integral part of the Customer Agreement. All Customers are required to read, understand and adhere to these rules and regulations. FXDD reserves the right to change any rules or regulations at its sole discretion and at any time and any such changes automatically become part of the terms and conditions of the Trading Rules and Regulations with which all Customers must comply. Customers may or may not receive notice of such changes but such changes will be posted on FXDD’s website. The latency allowance compensates for market movement during order “flight time.” If the market price moves before an order is executed by our systems, the order is filled at the order price if the difference between the order and market prices is still within the relevant latency parameter. On the other hand, if latency causes the difference between the order and market prices to be greater than the relevant latency parameter, the order is rejected rather than requoted. For resting orders, stops become market orders when elected and are filled in order at the next available price regardless of market direction. These orders may experience positive or negative slippage.

Gapping:

Sunday’s opening prices may or may not be the same as Friday’s closing prices. At times, the prices on the Sunday open are near where the prices were on the Friday close. At other times, there may be a significant difference between Friday’s close and Sunday’s open. The market may gap if there is a significant news announcement or an economic event changing how the market views the value of a currency. Traders holding positions or orders over the weekend should be fully comfortable with the potential of the market to gap.

Order Execution:

If the requested price of a Stop order is reached at the open of the market on Sunday, the order will become a Market order. Limit Entry orders are filled the same way as Limit orders. Stop Entry orders are filled the same way as Stops.

Telephone Orders

FXDD will have qualified staff that can execute Customers orders over the telephone. Telephone execution is intended only for those circumstances when trading via the FXDD Internet Trading Platform is not available due to technical problems or in situations when the Customer has no other connectivity option.

The FXDD Trade Execution desk can be reached by calling (+356) 2013 3939.

The following steps should be used to transact via the telephone:

1. The FXDD representative will ask for the Customer's **User Name** and **Account Number** from the Customer and confirm that the each match and confirm the identity of the Customer.

2. Once confirmed, the FXDD will ask for the Customer's **Order**. (i.e. **"What is your Order?"**)
3. The Customer should provide the desired **Order Type, Deal Action, Number of Lots, Currency Pair and Price** (if not a Market Order). For example:
 - a. **"Market Order to Buy 5 lots of EUR/USD"** (NOTE: "at the market" is implied with Market Orders)
 - b. **"Stop Loss Order to Sell 1 lot of USD/JPY at 118.00"**

If the Customer asks for a market price and the FXDD representative quotes a price, the customer acknowledges that the price as quoted is purely indicative. The actual price the customer deals at may or may not equal that price.
4. For the best and quickest results, **FXDD requires that the Customer speak in English and to wait for FXDD Customer authorization before giving the order details.**
5. The FXDD will repeat the order details or ask for the Customer to repeat the order if there was a problem with the original communication. For example, the FXDD representative may say, **"We will buy 5 lots of EUR/USD at the Market"**. If the details are correct, respond **"Agreed."**
6. After the order is executed, the FXDD representative will indicate that the deal was **"Done"** and relay the deal details back to the Customer including the deal price, the amount the currency pair and the Deal ID.
7. The FXDD representative will ask for Acceptance by the Customer. Again the Customer should respond **"Agreed"** to acknowledge the details.
8. The FXDD representative will enter the details into the Account for the Customer. It is the Customer's obligation to confirm that the deal was entered and properly reported in the Account upon the next subsequent log-in.
9. FXDD dealers have discretion to refuse to take orders other than Market orders if conditions require.

Trade Disputes

In the event of a trade dispute, it is the responsibility of the customer to contact an FXDD representative in a timely manner via e-mail (support@fxdd.com.mt) or the telephone at (+356) 2013 3933. The Customer should specify the deal ID or deal number, the specific dispute with the trade and any other information relating to the deal in question. Upon knowledge of the details of the dispute, an FXDD representative will analyse the deal and price logs and respond directly to the client. Because of the nature of the FX market, FXDD cannot settle disputes that are not brought to the attention of FXDD representatives in a timely manner. For example, should a Customer knowingly delay reporting a trade dispute in an attempt to benefit from a "free option" as a result of the problem, the client would be considered responsible for the transaction. In addition, disputes submitted after additional deals have been done in the Account, may subject the Customer to waiving his right to partial or full restitution.

System Manipulation

It is expressly prohibited to directly or indirectly use any device, software program, script or other artifice to manipulate, alter, interfere with or in any way attempt to manipulate, alter, or interfere with the normal functioning of any electronic trading system, platform, data feed, price feed, software program, connection speed or other interface, device, platform or software program of any type or kind made available to you, the customer, by FXDD in connection with trading on a trading platform made available by FXDD. Such prohibition extends to, but is not limited to, efforts to buy at the bid, sell at the offer, buy or sell between the published spread or otherwise trade on off market prices by taking any action, directly or indirectly, that interferes with, jeopardizes, compromises, slows down, accelerates, impedes or interrupts or in any way, attempts to interfere with the normal functioning of any FXDD operational and/or dealing activity, system, platform, execution or pricing function. Should FXDD determine, in its sole judgment, that a prohibited activity has taken place, FXDD reserves the right to immediately cancel all trades in the account, close or otherwise disable the account, terminate the customer agreement, report the activity to an appropriate law enforcement agency and/or regulatory agency and reverse all gains shown in the account resulting from or related to your touching upon the prohibited activity. Customers are liable for all expert advisers, scripts, software programs, algorithms or other artifices, technology or devices used in connection with trading on any platform made available to you, the customer, by FXDD.

Arbitrage

There are certain situations, including, but not limited to, internet issues, connectivity delays and/or price feed errors, where prices displayed on the Trading Platform or any other licensed trading platform are inaccurate and do not reflect proper market rates. Taking advantage of these Internet delays or issues, otherwise known as latency arbitrage or "scalping," is a detrimental manipulation of the OTC market and cannot be permitted where clients directly buy or sell from the market maker. Therefore the practice of latency arbitrage is strictly forbidden and constitutes a material breach of the Agreement. FXDD reserves the right to revoke any transaction that relies upon price latency arbitrage

opportunities. FXDD further reserves the right to amend, correct, or adjust as necessary any account involved in arbitrage. At FXDD's sole discretion, any such accounts may be subject to risk desk intervention including specific approval of any and all orders or even termination of an account, including any other related account established by the Client. Any dispute arising from such arbitrage and/or manipulation will be resolved in FXDD's sole and absolute discretion. Until such matters reach a resolution, FXDD reserves its right to place a hold on any account withdrawals. Notwithstanding any actions or resolution it may have under this provision, FXDD expressly reserves its right to further pursue any and all rights and remedies it may have against the Client. Nothing stated herein shall act as a waiver or prejudice such rights or remedies.

COMPLIANCE ACCOUNT DISABLING

FXDD reserves the right to disable, with or without notice, any Customer Account suspected by FXDD's compliance department to be in violation of any anti-money laundering or applicable financial regulator laws, rules or regulations.

This Acknowledgement forms a part of the Agreement which the parties (together as “Counterparties”), FXDD Malta Limited (“FXDD” or “we”) and Customer (“Counterparty” or “you” or “your”), as defined by the Signature Page previously executed, and describes the sole and/or additional methods by which Customer may confirm its trades with FXDD. As Customer is a Financial Counterparty (FC) or Nonfinancial Counterparty (NFC) as defined by Regulation (EU) No 648/2012 (“EMIR” or “the Legislation”) Article 2, its trades with FXDD may be considered to be OTC derivatives, and each trade, an OTC derivative contract.

As Customer is an FC or NFC, its trades with FXDD are governed by EMIR Article 11 (“Risk-Mitigation Techniques for OTC derivative contracts not cleared by a CCP” or “Risk-Mitigation Techniques”) and Commission Delegated Regulation (EU) No 149/2013 (“Risk Mitigation Technical Standards” or “Technical Standards” or “RTS on OTC Derivatives”). Pursuant to the Legislation and Technical Standards, Counterparties that enter into OTC derivative contracts not cleared by a CCP shall ensure that appropriate procedures and arrangements are in place to measure, monitor and mitigate operational risk and counterparty credit risk. The Parties acknowledge and understand the below terms and will comply in all respects with such terms. Customer agrees to be bound by the terms of any such amendment or change on the earlier of: (i) ten (10) days after FXDD has posted notice of such amendment or change on its Website; or (ii) on the date of the entry of any Order other than a liquidating order. In the event that the Customer objects to any such change or amendment, Customer agrees to liquidate Customer’s Open Positions and instruct FXDD regarding the disposition of all assets in Customer’s Account within ten (10) days after notice of the amendment or change has been posted to the Website. No waiver or amendment of this Acknowledgement may be implied from any course of dealing between the parties or from any failure by FXDD or its agents to assert its rights under this Acknowledgement or the Customer Agreement on any occasion or series of occasions. No oral agreement or instructions to the contrary shall be recognized or enforceable.

A. TIMELY CONFIRMATION

Pursuant to the Risk-Mitigation Techniques and Technical Standards, Counterparties must ensure timely Confirmation of any and all OTC derivative contracts entered into. For the purpose of this and all applicable agreements, the term “Confirmation” will have the meaning delineated in Article 1(c) of the Risk-Mitigation Technical Standards. Confirmations must contain all the legal terms of the swap and must be transmitted as soon as technologically practicable, but no later than by the end of the second business day following the day of execution if the transaction is concluded after 31 August 2013 up to and including 31 August 2014, and no later than by the end of the first business day following the day of execution if the transaction is concluded after 31 August 2014.

FXDD and Counterparty agree in advance on the following specific process to reach a legally binding agreement to all the terms of an OTC derivative contract as to any and all trades executed between Counterparties in accordance with the Risk-Mitigation Techniques and Technical Standards:

- For each OTC derivative trade, FXDD will generate a written confirmation that memorializes the agreement of the Counterparties to all of the terms of the OTC derivative contract.
- Upon the end of each business day, Customer will receive a single email containing the written confirmation of each OTC derivative contract executed on that same day between the Counterparties, along with all legal terms of each transaction. This email will represent FXDD’s authentication of the transaction.
- ***It is the responsibility of Customer to review the Confirmation of each transaction.*** Counterparty, upon extensive review, must object or reject confirmation of any trade by expressly contacting FXDD Customer Service by email or telephone within 24 hours of the FXDD’s Confirmation email.
- If a Confirmation remains for 48 hours without a written rejection that details the objectionable content of the Confirmation, FXDD will deem the documentation finalized and accepted by both parties.

Please further note that each confirmation will contain definitions and provisions contained in EMIR and the Risk-Mitigation Technical Standards. In the event of any inconsistency between those definitions and provisions and the Confirmation, the Confirmation will govern.

FXDD reserves the right to amend this process at its sole discretion based on period evaluations of its practical application and/or in

FXDD reserves the right to amend this process at its sole discretion based on period evaluations of its practical application and/or in accordance with any legislative amendments to EMIR and/or the RTS on OTC Derivatives.

B. FORMALISED PROCESSES FOR PORTFOLIO RECONCILIATION AND DISPUTE RESOLUTION

Pursuant to the Risk-Mitigation Techniques for OTC derivative contracts not cleared by a CCP and the Risk-Mitigation Technical Standards, Counterparties must establish formalized processes which are robust, resilient and auditable in order to reconcile portfolios, to manage the associated risk and to identify disputes between parties early and resolve them, and to monitor the value of outstanding contracts. For the purposes of fulfilling this requirement, FXDD will adhere to the ISDA 2013 EMIR Portfolio Reconciliation, Dispute Resolution and Disclosure Protocol as published on 19 July 2013 by the International Swaps and Derivatives Association, Inc. ("ISDA Protocol"). This Acknowledgement Concerning EMIR Risk Mitigation Procedure, together with the full Customer Agreement, the Customer Account Application, FXDD Trading Rules and Regulations, Risk Disclosure Statement, Additional Risk Disclosure Statements and all applicable written Addenda thereto, will be deemed modified to reflect the ISDA Protocol upon execution of the Protocol as to any Customer that also adheres to the ISDA Protocol.

For any FC or NFC that has not adhered to the ISDA Protocol, the below terms and conditions shall apply to all OTC derivative contracts entered into between FXDD and Counterparty. FXDD reserves the right to amend this process at its sole discretion based on period evaluations of its practical application and/or in accordance with any legislative amendments to EMIR and/or the RTS on OTC Derivatives. FXDD further reserves the right to require Customer adherence to the aforementioned ISDA Protocol as a condition to trading with FXDD.

(1) Portfolio Reconciliation.

Pursuant to Article 13 of the Risk-Mitigation Technical Standards, FXDD will send Counterparty the key trade terms that identify each particular OTC derivative contract in the form of daily account summary, or, at the minimum, in accordance with the following schedule:

- For trades between FXDD and Financial Counterparties or Non-Financial Counterparties referred to in Article 10 of EMIR:
 - *500 or more daily contracts outstanding w/ each other*: Daily Reconciliation
 - *51-499 contracts outstanding w/ each other per week*: Weekly Reconciliation
 - *50 or less contracts outstanding per quarter*: Quarterly Reconciliation
- For trades between FXDD and Non-Financial Counterparties not referred to in Article 10 of EMIR:
 - *100+ outstanding contracts at any time in quarter*: Quarterly reconciliation
 - *100 or less outstanding*: Annual Reconciliation

It is the responsibility of Customer to review and identify any and all discrepancies that Customer, acting reasonably and in good faith, believes are material to the rights and obligations of the Counterparties to OTC Derivative Contracts executed. Customer must provide written objection to FXDD Customer Service as soon as technologically practicable, or, at the latest, within 24 hours of the FXDD account summary email. If Customer fails to notify FXDD of discrepancies or inaccuracies contained in the account summary by end of the fifth business day of the Counterparty following the due date, Customer will be deemed to have affirmed the data contained in the account summary.

(2) Dispute Resolution.

Pursuant to Article 15 of the Risk-Mitigation Technical Standards, Counterparties agree that the following detailed procedures and processes in relation to the identification, recording, monitoring, and resolution of disputes:

- Both FXDD and Customer, acting in their respective capacities as Counterparties, have the right to send the other a Notice of Dispute detailing any discrepancy or deficiency identified
- Upon receipt of the Notice of Dispute, Counterparties will make a good faith effort to resolve the dispute in a timely manner. Counterparties will cooperate in the exchange of information necessary to resolve the instant dispute in accordance with the processes

outlined in the Customer Agreement.

- With respect to any dispute that remains unresolved for a period of five (5) days following the receipt of the Notice of Dispute, Counterparties agree to internally refer the dispute to the proper senior members of the entity.
- Counterparties agree to develop and implement effective internal processes to maintain and monitor disputes properly for the duration of the dispute.

FXDD may, in the course of complying with EMIR and the Risk-Mitigation Technical standards contemplated under this Acknowledgement, need to disclose some or all of the Customer's personal data, whether sensitive or otherwise, to its employee/s, associate/s, agent/s, sub-contractor/s, product provider/s and/or investment institution/s, (all of which shall be made subject to such confidentiality and data protection obligations as shall be considered necessary by FXDD in order to comply with its obligations under this Agreement) for the purpose of providing the said services and/or to any regulatory or public authorities, or trade repositories, to comply with its regulatory or other obligations in terms of law, and for these purposes the Customer explicitly consents to the transfer of his/her personal data, whether sensitive or otherwise to other countries in accordance with the Data Protection Act and the regulations made thereunder. The Customer is hereby giving his explicit consent to the processing of personal data, whether sensitive or otherwise, as contemplated in and for the purposes provided for in this Clause.

In terms of the Data Protection Act, the Customer is entitled to request FXDD to inform the Customer in respect of the personal data held about him/her that is processed and to request its correction, updating or amendment, where necessary.
